

2024

We will spend the summer immersed in nature with our campers! Camp New Leaf is composed of multiple levels sure to make your child's summer one to remember at any age! All activities are adapted to each camp level. Our summer camp features field trips, water activities & special nature exploration activities to help your child build on their agility and survival skills! Your child will also be busy helping to grow, harvest & prepare their own food as well as other activities cohesive with survival, homesteading, & practical life including archery, and onsite chicken hatching! Enrollment includes all weeks from June 10th- August 21st*. Enrollment includes a camp T-Shirt! Camp themes change every week. *Camp is closed on the 4th of July.

June

1: Camp Kickoff

Campers will set up camp and learn camp basics. Camp set up will include creating camp name tags, raising the flag, and learning camp songs and routines. Campers will learn all about outdoor safety as they begin to explore the beautiful Pamperin Park and walking trails that surround our camp base.

2: Aquatic Biomes

Campers will learn about underwater ecosystems and take a day trip to Barkhausen for a pond study! They will explore the differences between both salt water and fresh water ecosystems.

3: Gardening

Campers will get the opportunity to learn about the preparation and harvesting that goes into a garden. Campers will plant their own garden and flower with Mrs. Roffers, who is passionate about gardening and landscaping.

July

4: American Roots

Campers will learn and celebrate what it means to be an American and will enjoy a visit from a local emergency service hero and have a picnic celebration including face painting!

5: Survivor

Students will learn the basics for survival including how to build a fire, pitch a tent, shoot a bow and arrow, and use a compass to navigate. They will also learn how to identify edible and poisonous foliage and animal species!

6: How It's Made

Campers will experience what goes into making different items! This is a great opportunity for parents or the community to come in and demonstrate the creation of all types of items.

7: Fairytales

Campers will read and work to compose their very own fairytale utilizing nature as their inspiration, as well as creating fairytale inspired artwork. A Magician will join us at camp this week.

August

8: Creeping Creatures

Campers will learn all about insect classification, myths and helpful insects and animals as they get up close and personal with creepy crawlies. Campers will enjoy a touch and feel experience with live exotic animals.

9: Back in Time

Campers will go back in time to learn about the history of our country. Campers will visit Heritage Hill to observe historical building and practices!

10: Birds Of Prey

Campers will learn about the vast variety of birds their characteristics and their place in the food chain. They will enjoy a special visit from the Green Bay Wildlife Sanctuary!

11: Farmstead Life

Students will learn homesteading basics such as churning butter. They will also learn what goes into growing, harvesting and maintaining food sources, and will help to care for our newly hatched chicks!
